

All I Want to Do Is Sing My Song

Merle Haggard

All I wanna do is sing my song
It's the only way to pacify my mind until I'm strong
The very thought of losing you chills me to the bone
And all I wanna do is sing my song

All I wanna do is sing my song
Don't wanna think about the times she done me wrong
I just wanna ease my mind but the memories are much too strong
And all I wanna do is sing my song

All I wanna do is sing my song
Maybe I'll find somebody else to help me sing along
There's something bout the melody makes the nights not seem so long
And all I wanna do is sing my song

All I wanna do is sing my song
And when the show is over I'll be waitin' by the phone
And if the phone starts ringin' with "Honey, please come home"
Who knows I might sing my way back home
