

Apart for a While

Merle Haggard

Apart for a while, not forever alone
We got memories to share, we got pictures we own
We got the friends that we knew, we got a marriage on file
Together again, apart for a while

Everything happens to me and everything happens to you
So if one should outlive the other, let these words guide Him through
God is my dead, so death's out of style
Together again, apart for a while

Everything happens to me and everything happens to you
So if one should outlive the other, let these words guide Him through
God is my dead, so death's out of style
Together again, apart for a while
