

Falling For You

Merle Haggard

You bring me happiness and leave me loneliness
My world is in distress 'cause I'm falling for you
You look into my eyes and tell the sweetest lies
You're a heartbreak in disguise and I'm falling for you

Oh, darling when you're near, my world is happy, dear
But when you disappear, I'm afraid that we're through
I love in misery you're so unfair to me it's all a mystery
Why I'm falling for you

Oh, darling when you're near, my world is happy, dear
But when you disappear, I'm afraid that we're through
I love in misery you're so unfair to me it's all a mystery
Why I'm falling for you
