

Hang on to the Memories

Merle Haggard

We made our vows together, the chapel on the hill
Don't know why you're leaving, don't guess I ever will
You said you'd love forever, now forever has come and gone
But I guess that I will make but I'll make it all alone

So hang on to the memories that we have shared together
Good times, hard times, we didn't mind the weather
Ah, for me I see hard times and oh what stormy weather
But hang on to the memories, some day we may get together

We slaved and save together in sunshine, snow and rain
Worked and saved for tomorrow, now tomorrow will be in vain
I wish you knew my feelings never been this low before
A time when we're both breathing as we walk in to the door

So hang on to the memories that we have shared together
In good times and hard times we didn't mind the weather
Now for me I see hard times and oh what stormy weather
But hang on to the memories, some day we may get together
But hang on to the memories, some day we may get together
