

# Live And Love Always

**Merle Haggard**

I wanna live and love under the stars above  
I wanna hold you close to my heart  
You gave me hopes anew when I was sad and blue  
Nothin's gonna tear us apart

I sang a lonely song until you came along  
I'm headed for that bright sunny day  
Honey I'm tellin' you what love can do  
I'm gonna live and love always

Yeah I wanna shout hooray, praise that lucky day  
When you came walking into my life  
I got a change in plans 'cause I'm a different man  
I'm thru with all that trouble and strife

I used to be so sad now I feel so glad  
I'm headed for that bright sunny day  
Honey I'm tellin' you what love can do  
I'm gonna live and love always

Yeah, I used to feel so bad now I feel so glad  
I'm headed for that bright sunny day  
Honey I'm tellin' you what love can do  
I'm gonna live and love always
