

# Sing A Family Song

Merle Haggard

There's got to be some folks around  
With memories just like mine  
Who'd give the world to stop the clock  
And turn back the hands of time

To an evenin' spent like so many spent  
With mom and dad at home  
When dad would get the old guitar down  
And sing a family song

Sing a family song, sing a family song  
When mom and me sang harmony, little sister, she hummed along  
Sing a family song, oh, sing a family song  
When dad would get the old guitar down and sing a family song

Now maybe at first your memories of home  
Won't resemble mine at all  
But there's one thing I know we all have in common  
And that's the God given gift to recall

Maybe your dad didn't play no guitar  
But I know that there was somethin' he did  
That doesn't make your old heart just well up and sad  
When you relive your life as a kid

Sing a family song, oh, sing a family song  
When mom and me sang harmony, little sister hummed along  
Sing a family song, oh, sing a family song  
When dad would get the old guitar down and we'd sing a family song  
ong  
When dad would get the old guitar down and sing a family song
