

Union Station

Merle Haggard

Blow whistle blow, watch them old freight trains roll
As they roll through Union Station
They say they are trying to tear it down
It's a shame for so long it's been around
A tribute to our nation the historical Union Station
Blow whistle blow, watch them old freight trains roll
As they roll through Union Station

Then new one will come, it won't be the same
The old ones are sure around but what's a shame
It's forsaking the old for the newer one
Just think what the old Union Station's done
Blow whistle blow, watch them old freight trains roll
As they roll through Union Station.

Mhm, mhm, as they roll through Union Station
