

# Wine Take Me Away

**Merle Haggard**

Warm red wine you know that place where you take me some times  
Where my caress have wings and fly right off my shoulder  
Where I leave my cares behind and for a while find peace of mind

Help me friend of mine wine take me away  
Wine take me away where I can lose myself  
Take me where I won't even see the light of day  
It's my life and I wanna live it it's my will and I wanna give it

Help me friend of mine wine take me away  
When my life becomes a grime and when I'm weary and tired  
Then I'll tell myself I need a short vacation  
I gotta leave this lonely town and you're the quickest way I found  
Help me friend of mine wine take me away  
Wine take me away  
Help me friend of mine wine take me away
