

There's just no other way

Everything I did  
Ended up so wrong  
Everything I made  
Never lasted long  
Everything I did  
Ended up so wrong  
Everything I made  
Never lasted long

I never meant to hurt you so much  
I've broken everything that I touch  
We shouldn't have to spend our lives  
Stuck in the past making it last forever  
I never meant to hurt you so much  
I've broken everything that I touch  
We shouldn't have to spend our lives  
Stuck in the past making it last forever
