

Is It So Hard

Mesh

I couldn't deny
It's only the wise that make it
It's only the fools that throw it away
And so I can't rely on
Most of my life I've been here
It should be my youth that's in the way

But did I tell you that
I love you
It's over
It's too late
Move over
The meaning's gone from everything

Is it so hard for you and me
We break their hearts
We clip their wings
And we say everything we try to do is wrong
Is it so hard for you and me
We play our parts
It's so obscene
When we say everything worth living for is gone

It's only design
There's something malign at work here
Something that only needs today
And I'll just resign
And you'll just take what you're given
And everything else gets thrown away

But did I tell you that
I hate you
I need you
You're worn out
And see through
And all those words get in the way

Is it so hard for you and me
We break their hearts
We clip their wings
And we say everything we try to do is wrong
Is it so hard for you and me
We play our parts
It's so obscene
When we say everything worth living for is gone

You try so hard to prove me wrong
You can't do anything to change where we belong
You try so hard to make me see
But can't do anything to ruin you and me

Is it so hard for you and me
We break their hearts
We clip their wings
And we say everything we try to do is wrong
Is it so hard for you and me
We break their hearts

We clip their wings
And we say everything we try to do is wrong
(You're worn out and see through)
Is it so hard for you and me
We play our parts
It's so obscene
When we say everything worth living for is gone
(You're worn out and see through)

I love you
It's over
It's too late
Move over
I hate you
I need you
You're worn out
And see through
I love you
It's over
It's too late
Move over
I hate you
I need you
You're worn out
And see through
