

My Saddest Day

Mesh

I found a picture of you
Down beside the bedroom wall
An image so real
Reminding me of what's in store
And it's hard to hold
The surface of the glass so cold
Without it falling
Without recalling

My saddest day
My saddest day
With you

You didn't speak of death

With all the strength that you had left
You just pulled me near
To prove to me your deepest fear
It wasn't hard to listen
As the surface of your skin glistened
That day of all days
In that way of all ways

My saddest day
My saddest day
With you.
