

Only Better

Mesh

I've done nothing wrong
I've am not that strong
I've done nothing wrong to you

Only the weak defend me
Only the weak pretend that

You didn't waste all that time
You just leave forever
You couldn't say you had it all
You want only better

I tried makin sense
I got no defense
I lost all pretence for you

And only the loved believe me
And only the pure can see that

You didn't waste all that time
You just leave forever
You couldn't say you had it all
You want only better

You, what you say
Looks behind the day
And you, what you say
Just love me and away (?)

You didn't waste all that time
You just leave forever
You couldn't say you had it all
You want only better

You didn't waste all that time
You just leave forever
You couldn't say you had it all
Only the weak pretend that

And only the loved believe me
And only the pure can see that

You didn't waste all that time

You couldn't say you had it all
You want only better
