

## Waiting For Someone

Mesh

There's something wrong in your fact  
There's too many ghosts in this place  
You let them through this embrace  
Like I've never been here

I just can't stay here  
It isn't my place here  
You're waiting for someone  
Am I better than no one?

I just can't stay here  
It isn't my place here  
You're waiting for someone  
Am I better than no one?

There's something purer than fear  
The strength of the hate that was here  
If I keep you safe from your tears  
It still won't be enough

I just can't stay here  
It isn't my place here  
You're waiting for someone  
Am I better than no one?
