We'll Never See the Day

Meshuggah

Justice runed by eternal travesty Bloodcurdling hammer soon to be released Stalking brutality tomorrow we will see the unjustified agony unleashed

Strangling superstitious braces Rampage overboard Remoted deathmasks have no faces We only see the cord

Lead to pathes and alleys chosened by a treacherous source Squeeze the odds down to our last days to summon up their force

Folded to pernicious chambers pounded by the walls Disappear noone remembers Nobody hear our calls

Ruthless saints prey upon us the society of friends They are the wounds we are the pus no matter how I ends

Maimed and left to putrefy betrayed by society Indiscreet left to die filled with indignity

We will come to grief by this irrational democracy What's a life worth for humanity Nothing more than justice by insanity

Utilization, covetousness a voracious mouth to feed fatal greed engraves our death chokes our possibilities

We are the children of this devastating science We are the lost till the end We are the victims who knows who is lying forgotten we are dying

WE ARE DYING

WE'LL NEVER SEE THE DAY WE'LL NEVER SEE THE DAY WE'LL NEVER SEE THE DAY WE'LL NEVER SEE THE DAY
