

Almost

Mest

Your past makes me want to be no part of your future
The lies that you live, are all that you have to live for
Now walk with me love as I show you to the door
You chose your path and now I want no more

Now leave me alone

I almost had it all
I almost had to fall
I've been close to the top and closer to the bottom
I almost had it all
I almost had to fall
I've been close to the top and closer to the bottom

My skeletons came knocking with the answers that I look for
I thought my life was over, they assured me there would be more
I sat there all alone, slowly falling apart
This would be hard, but this would be my new start

Now you're all alone

I almost had it all
I almost had to fall
I've been close to the top and closer to the bottom
I almost had it all
I almost had to fall
I've been close to the top and closer to the bottom

I should
Have seen this coming
A broken past
Should have kept me running
Cos' now our lives
Will never be the same
I'm not going to look back
This time
I've realised that
With the truth spoken
The lies they die with you

I almost had it all
I almost had to fall
I've been close to the top and closer to the bottom
I almost had it all
I almost had to fall
I've been close to the top and closer to the bottom
I almost had it all
I almost had to fall
I've been close to the top and closer to the bottom

Bottom
