

## Chance Of A Lifetime

Mest

The end of the world's in front of me  
Hard to believe all I see  
It comes so close but pulls away  
To let me stay another day

It's one chance in your lifetime  
But it won't be the last time  
It seems theres always the next hill to climb  
And you know there's a lifetime

The things that I see never end  
Trickin' my mind to just pretend  
I understand what's happening  
When others doubt you still believe

It's one chance in your lifetime  
But it won't be the last time  
I swear theres always the next hill to climb  
And you know there's a lifetime

Changing what I once thought  
Letting go of what I once fought  
There's a life that you need to find  
All that surfaced has changed my mind

The end of the world's in front of me  
Hard to believe all I've seen

It's one chance in your lifetime  
But it won't be the last time  
I swear theres always the next hill to climb  
And you know there's a lifetime
