

Let's go it's so funny sometimes what you see
it really blows my fuckin' mind
please tell me what are you trying to be
it really blows my fuckin' mind
who are you trying to be who are you following now
who are you trying to be who are you following now

Quit trying to be something you're not
it only makes me laugh
quit trying to be something you're not
it's your real friends that you forgot

Image of you it makes me sick
I laugh out loud you probably think I'm a dick
but I don't really care what the fuck you say
I'll always be myself and I'll always be that way
who are you trying to be who are you following now
who are you trying to be who are you following now

Quit trying to be something you're not
it only makes me laugh
quit trying to be something you're not
it's your real friends that you forgot

Who's that on the corner is it really you
let me ask you one thing what are you trying to prove
please please please tell me what you're do
please please please tell me what you're trying to prove
please please please tell me what you're do
please please tell me what you're trying to prove

Quit trying to be something you're not
it only makes me laugh
quit trying to be something you're not
it's your real friends that you forgot
