

Opinions

Mest

Frustrated with whats going on
I feel lost and i dont feel right
Tell me what I can do to make
Them happy, but then will I be happy

I can't do wrong, I can't do right
I feel so alone tonight
I wish someone could feel
And understand the way I think
They got me on the brink
Of self destruction
I wish someone could feel

People surround me
Fill my head with opinions
Of what they think is right

I can't do wrong, I can't do right
I feel so alone tonight
I wish someone could feel
And understand the way I think
They got me on the brink
Of self destruction
I wish someone could feel

I can't do wrong I can't do right
I wonder where you are tonight
I wish that you were here
To understand the way I think
You know they got me on the brink
Of self destruction
I wish someone could feel
I wish someone could feel
