

Radio (Something to Believe)

Mest

You're everything I want
You're all that I need
You built inside of me something to believe
And when I felt alone you were right here by my side
You gave me something to believe

Hello!
Well I'm back!
There was something inside of me
Something inside of you
That kept me to believe

I was never gonna let go
Cause this life is all that I know

Time was my only company
All your words stuck in my head
Reminded me of who I am

Now I'm standing here at the edge of the world
Time's standing still, your voice is all I hear
The time is now!

You're everything I want
You're all that I need
You built inside of me something to believe
And when I felt alone you were right here by my side
You gave me something to believe

I was half the person that I used to be
Withhold in life that nothing's free
Well I paid my due so don't judge me

Cause this life is all what you make it
As you're by your side what you fake it
I heard all of your lies this one last time

Now I'm standing here with my hands towards the sky
My heart beating, but I'm feeling dead inside
The time is now!

You're everything I want
You're all that I need
You built inside of me something to believe
And when I felt alone you were right here by my side
You gave me something to believe

You gave me something
(You gave me something)
Something to believe

You gave me something
(You gave me something)
Something to believe
(Something to believe!)

You gave me something

(You gave me something)
Something to believe
Something to believe!

You're everything I want
You're all that I need
You built inside of me something to believe
And when I felt alone you were right here by my side
You gave me something to believe

You gave me something
(You gave me something)
Something to believe
(Something to believe)

You gave me something
(You gave me something)
You gave me something to believe!
