

Reason

Mest

You say you love me but you can not leave him
So now I'm leaving you this here same reason
Cause times change and so do the seasons
And the seasons changed
So I listen to what you say
But I don't believe a word you say

You say you love me but you can not leave him
So now I'm leaving you this here same reason
Cause times change and so do the seasons
And the seasons changed
So I listen to what you say
But I don't believe a word you say

I just wanted to get over you
But I can't stop thinking about you
Not a second goes by that you're not in my head
You dick me over again and again
But I still remained your friend
It's time for this to end

You say you love me but you can not leave him
So now I'm leaving you this here same reason
Cause times change and so do the seasons
And the seasons changed
Will you still love me tomorrow?

For way too long you fucked with my mind
I've sang this song way too many times
And you need to know it's gone on for too long
Thought it would be just the two of us in the end
But now I'm leaving and you're not even my friend
Was the way you felt for real

You say you love me but you can not leave him
So now I'm leaving you this here same reason
Cause times change and so do the seasons
And the seasons changed
Will you still love me tomorrow?
Tonight i fell the love in your eyes
Will you still love me tomorrow?

You say you love me but you can not leave him
So now I'm leaving you this here same reason
Cause times change and so do your feelings
And your feelings changed
And will he love me tomorrow?
Tomorrow, tomorrow, tomorrow, tomorrow
