

## Dead City

Metal Church

Rain forever, darkened skies  
Hopeless is a way of life out here  
No one ever sees the sun, got a future on the run in fear  
The walking dead they lurk the streets,  
The whores and damaged industry of night  
Morbidly they carry on  
No one's home, the lights are on  
This place is where death comes to die  
We're livin here in Dead City  
We're livin here in Dead City  
Eternal gray and soaking wet.  
The homeless man has paid his debt to her  
Mother Nature held the cards  
The river feeds but not to ours, you'll learn  
The monster of the corporate world  
Destroyed the dream, the everyman in sight

No one's home, the lights are on  
This place is where death comes to die  
We're livin here in Dead City  
We're livin here in Dead City

It's the end of everything we knew  
Dreams are gone the monster stole them too  
This is not the place that I once knew  
It's the end, in front of you  
It's the end of everything it's true

Theres no way of livin in this place  
A slow slow death staring you in the face

We're living here in Dead City  
We're living here in Dead City  
We're living here in Dead City  
Don't want to die in Dead City
