

## Scream

Metal Church

Like a loaded gun  
Aimed at everyone  
Trying to get somewhere before your time is done  
The grinding never ends  
It wears you down and then  
Chews you up and spits you out and starts again

Like a torture that's only in your head  
Want to crawl out of my skin  
I cant forget all the things that you said  
How the hell did you get in

Screaming like a mad man that no one ever hears  
Running at the speed of light while I'm standing here  
You had your nasty hooks in me but I'm on to your game  
Crazy but now I'm completely sane

This train is off the track  
And theres no going back  
This time I will see the other side of black  
Tried to smash me down  
I'm coming back around  
You'll get what's coming to you never to be found

Like a torture that's only in your head  
Want to crawl out of my skin  
I cant forget all the things that you said  
How the hell did you get in

Screaming like a mad man that no one ever hears  
Running at the speed of light while I'm standing here  
You had your nasty hooks in me but I'm on to your game  
Crazy but now I'm completely sane
