

# Soul Eating Machine

Metal Church

I'm gone I'm outta here, it's not the place for me  
I've lost the sense of self and my reality  
I can't believe my eyes, it's right in front of me  
I watched you change your face  
In hopes of changing me

Like a soul eating machine  
Feeding on my hopes and dreams  
Screaming at the world outside  
Now there's nothing left inside

How do you sleep at night?  
Now that's a mystery  
You blew up every bridge  
You've got your hooks in me  
Tell me just one more thing  
How did you come to this  
There's just one place for you  
And it's your own abyss  
Never to be missed
