

Casualty Evacuation

Metal Inquisitor

Lost in a dark land, watch the space, lights, and the full noise of war

Life, limb or eyesight, all in veil, some of the enemies roar

Rise, all out one day just on my way, right on the way to gleam
If life, were but a dream - a silent beam, flowing desperate stream

Bloody case of emergency, would they find you, just your rescue?

In the case of urgency, a great demand for, no more miscue

Death in combat, soldier's fate, pray, the destiny's end
Scald, and half-blind, bloodfest or thirst, hard to defend

Rise, all out one day just on my way, right on the way to gleam
If life, were but a dream - a silent beam, flowing desperate stream

Bloody case of emergency, would they find you, just your rescue?

In the case of urgency, a great demand for, no more miscue

Live for the answer, don't you ask for
Die for the lost case - morning comes...

Rise, all out one day just on my way, right on the way to gleam
If life, were but a dream - a silent beam, flowing desperate stream

Bloody case of emergency, would they find you, just your rescue?

In the case of urgency, a great demand for, no more miscue
