

Drowning Death

Metal Inquisitor

There comes the reaper, see there is the mad
Ascends the scaffold, to judge the really bad
The ugly hangman, see his urgent needs
A sign of judgement, avenging dark seeds

Last standing final, an ending fool
Incoming big sleep, like a bloody tool
Drowning death, drowning death, drowning death again

A show for gaper, watch a circus crown
A violent late night, restless mobbing town
Just entertainment, only light fare
To appear in public, the death accept a dare

Last standing final, an ending fool
Incoming big sleep, like a bloody tool
Drowning death, drowning death, drowning death again

There comes the reaper, see there is the mad
Ascends the scaffold, to judge the really bad
The ugly hangman, see his urgent needs
A sign of judgement, avenging dark seeds

Last standing final, an ending fool
Incoming big sleep, like a bloody tool
Drowning death, drowning death, drowning death again
