

Servant of State

Metal Inquisitor

My father killed my only friend
Had shot him while I had to watch
The darkest hour of my life, my heart was hurt
His soul untouched

I am the regent of my own, not a jester on the throne
Rule and serve, servant of state, servant of state
Servant of state...

He didn't care what he had done, nothing more but an end
I survived and made me strong, so I have to - repent!

I am the regent of my own, not a jester on the throne
Rule and serve, servant of state, servant of state, servant of
state...

I am the regent of my own, not a jester on the throne
Rule and serve, servant of state

I am the regent of my own, not a jester on the throne
Rule and serve, servant of state
