

Atrocity

Metalium

Ignorance is all around,
Human losses get to show
Planets fade without a sound
While others start to grow
Start to grow

The end seems near, to be seen
Raising biggest fears in me
Pollution here and brainless rules
But I will soon escape this sea

All Nations - impossible
To find a unique way

I see now what I got
We see here, what we got
It's killing me
Revulsion is what we see
Stealing time in me
Atrocity

Earth is shaking
Hate is Fate
Armageddon is getting near
Be sure the devil won't be late to get you
Steering up your fear

Surrendering, cant be my case
Aint my way that it should be

I see now what I got
We see here, what we got
It's killing me
Revulsion is what we see
Stealing time in me
Atrocity

I see now what I got
We see here, what we got
It's killing me
Revulsion is what we see
Stealing time in me
Atrocity
