

Falling into Darkness

Metalium

Him: Seems I... I'm leaving
Dark side: it's just a ride to the other side
Him: my will is fading
Dark side: it's just a ride to the other side

Him: I was living on the other side
Long time ago
Gardens green
Forever

Once I climb the steps above
My energy is fading
Once I kick off the climb
There's no return

Falling into darkness
Hanging now I'm gonna die

Him: For me, he is waiting
Dark side: he is waiting, he is waiting
Him: the tree, I've chosen,
I can't escape my destiny

This place was the paradise
Freedom around
Now I'll go
You'll find the ladder in the dirt

Once I climb the steps above
My energy is fading
Once I kick off the climb
There's no return

Falling into darkness
Hanging now I'm gonna die

Falling into darkness
Hanging now I'm gonna die
Die, die

Good bye, good bye, my destiny
