

Incubus

Metalium

They shall lay their hands upon the sick and all will be well with them.

Lord show us your favor and mercy. AMEN!

Your outside, her core is mine
There's no way you can draw me out
I was there before your Christ could cross,
to see in mankind's eyes
Not my fault, I'm here to be
Mankind will die on earth, you'll see
Hell awaits the chosen one
Her soul is mine I'll take her down

There is nothing in this world
Which could stop me now, no
Hellfire awaits
Burn your regrets
Power in my veins

Incubus- Awake
Incubus- Awake

Sacred flames
On the sixth day
Of the sixth month
In the sixth hour

All witches, you might burn
The history you'll turn
You sell your truth, that ain't not mine
Keep telling on your lies

Feed my force, tell them more
You don't know what you are giving for
You deliver victims here
The Evil is in YOU, my dear

In the deepest night I'll come
To crawl into you
You cant hide from me
I'm in your dreams
My semen makes you mine

Incubus- Awake
Incubus- Awake

(Priest) From all sins
(Devil) From your wrath
(Priest) By your birth
(Devil) By your death
