

# Mother Earth

Metalium

Something's calling, Skies are falling  
Darkening day and night  
Now we stand here, feeling our anger  
Releasing the pain inside

You are  
Take it all away  
No matter what they say  
You'd better stay away from the night  
It's hunting me

God can't you see, this pain in me  
All The blood that has been wasted in your name since  
ever  
God can't you feel  
Tears have been wasted since you were here, ohooooooooo  
God can't you see  
Earth is crying, we are dying  
A part of you and me  
Nature's screaming, violence is teaming  
Soon enough we'll see

You are  
Take it all away  
No matter what they say  
You'd better stay away from the night  
It's hunting me

God can't you see, this pain in me  
All The blood that has been wasted in your name since  
ever  
God can't you feel  
Tears have been wasted since you were here, ohooooooooo  
God can't you see

God can't you see, this pain in me  
All The blood that has been wasted in your name since  
ever  
God can't you feel  
Tears have been wasted since you were here, ohooooooooo  
God can't you see, this pain in me  
All The blood that has been wasted in your name since  
ever  
God can't you feel  
Tears have been wasted since you were here, ohooooooooo  
God can't you see
