

Power Strikes the Earth

Metalium

"Getting closer doesn't mean reaching the end
Take the path your heart is telling you to go
For your believe you will stand
As power strikes the earth... Final moment will be soon!"

Getting closer...
When you're feeling down
Don't know which way to go - A light burns the sky
Standing at the crossing of so many roads
Come with us on a ride
Passion is stronger, to influences, we're immune
Keeping up longer, the final moment will be soon

Darkness will fall into the sunset, destinies call
Our power strikes the earth

Take the path your heart is telling you to go
For sure it will be right
Believe in only what you feel, follow the trail, our sign enlightens the
night

Darkness will fall into the sunset, destinies call
Our power strikes the earth

Getting closer doesn't mean reaching the end
Take the path your heart is telling you to go
For your believe you will stand
As power strikes the earth... Final moment will be soon!

Darkness will fall into the sunset, destinies call
Our power strikes the earth
