

Silence of the Night

Metalium

Oh I've prayed for so long, now
To keep these tears
Inside of me
Isn't there really another way out ?

If we could turn back time
It wouldn't be the same for sure
No chance to touch the ground, once again
We once knew how

Let her rest in the deepest silence of the night
Forever sleeping, feel her pain inside
Silence of the night

Lord we're dying, but we don't know why
Reality - so cold -Abolishing Mother Earth so old
Explain to the curious eyes of a child
why

If we could turn back time
It wouldn't be the same for sure
No chance to touch the ground, once again
We once knew how
Once again

Let her rest in the deepest silence of the night
Forever sleeping, feel her pain inside
Silence of the night

Let her rest in the deepest silence of the night
Forever sleeping, feel her pain inside
Once again
Let her rest in the deepest silence of the night
Forever sleeping, feel her pain inside
So let her rest in silence
ohoooooo
So let her rest in silence
forever
So let her rest in silence
Pain inside
So let her rest
Silence of the night
So let her rest in silence
forever
So let her rest in silence
Pain inside
So let her rest
Silence of the night
