

# Sky Is Falling

Metalium

In deepest night, there is no chance to escape  
Don't ever dare  
The power of the earth  
First out of sight  
it'll get you down  
To where our species does belong

So watch the Sky falling,  
down to the Earth,  
There's nowhere for you to hide  
Vanished away  
The sea swallows lives and daylight, bringing fear to  
the night  
And all you can do is stand and stare  
The power of the earth

Our ignorance and our jealousy  
Makes us believe  
We rule our fate  
We try to rewrite  
And change the Genesis  
But soon our weakness will be for all to see

So watch the Sky falling  
Falling down to the Earth,  
There's nowhere for you to hide  
Vanished away  
The sea swallows lifes and daylight, bringing fear to  
the night  
And all you can do is stand and stare  
The power of the earth  
Ohhhhooooooooouhhhhhhhhhhh, Ohhhhooooooooouhhhhhhhhhhh,

So watch the Sky falling  
Falling down to the Earth,  
There's nowhere for you to hide  
Vanished away  
The sea swallows lives and daylight, bringing fear to  
the night  
And all you can do is stand and stare  
Stand and stare yeahyeahheheeeeeeeeeee  
Stand and stare yeahyeahheheeeeeeeeeee  
The power of the earth
