

# Just A Bullet Away

Metallica

All roads they lead to shame  
All drowning in the blame  
All reflections look the same  
In the shine of the midnight revolver

All hide beneath a skin  
A hope so paper thin  
I'm at the door again  
And the shine of the midnight revolver

Even the promise of danger has gone dull  
Staring down the barrel of a 45

Suck on the barrel  
Suck on the barrel  
Suck it 'til it's gone dry

For all reflections look the same  
In the shine of the midnight revolver

Redemption purify  
Will nothing satisfy  
The scars just multiply  
In the shine of the midnight revolver

Twisting in apocalypse  
Death upon the fingertips  
Frigid metal touches lips  
And the shine of the midnight revolver

'Cause you lied

Just a bullet away  
Just a bullet away from leavin' you  
Just a bullet away  
Stop the voices in my head

Caressing death again  
Becomes the heroin  
Forbidden medicine  
Puts a shine on the midnight revolver

Eternal borderline  
All the faces intertwine  
Oh God... now I see mine  
In the shine of the midnight revolver

Even the promise of danger has gone dull  
Staring down the barrel of a 45

Suck on the barrel  
Suck on the barrel  
Suck... suck till it's dry

For all reflections look the same  
In the shine of the midnight revolver

Down In Misery  
Down In Misery

Just a bullet away  
Just a bullet away from leavin' you  
Just a bullet away  
Stop the voices in my head

All roads they lead to shame  
All drowning in the blame  
Reflections look the same  
In the shine of the midnight revolver

All hide beneath a skin  
A hope so paper thin  
I'm at the door again  
And the shine of the midnight revolver

Even the promise of danger has gone dull  
Staring down the barrel of a 45

Suck on the barrel  
Suck on the barrel  
Suck... suck till it's dry

Do all reflections look the same  
In the shine of the midnight revolver

'Cause you lied  
Yes you lied

Just a bullet away  
Just a bullet away from leavin' you  
Just a bullet away  
Stop the voices in my head
