

Comin' Around

Metro Station

Feelin' you comin' around
You're breaking me down (breaking me down)
Move on, move on, move on
Come on, get out
Move on, move on, move on
Come on, get out

I keep talking cause I just need you to know
My motives were always to let you go
Your heart is pumping
The beat it fills the walls
This conversation is just to watch you fall
I still turn you on
This is your last chance to get some

Feelin' you comin' around
You're breaking me down (breaking me down)
Move on, move on, move on

Come on, get out
Move on, move on, move on
Come on, get out

You hold your ground
Come on, give up this fight
The sun's down
So you let me stay the night
The room's quiet
The whispers in your ear
Will cause your body to somehow get so near
(to some how get so near, to some how get so near)

I won't talk
I'm in it just for this
These moments are something I will make
You shed a tear
There's a feeling down below
That makes pain somehow die so slow
I'm getting you off

Feelin' you comin' around
You're breaking me down (breaking me down)
Move on, move on, move on
Come on, get out
Move on, move on, move on
Come on, get out

Feelin' you comin' around
You're breaking me down (breaking me down)
Move on, move on, move on
Come on, get out
Move on, move on, move on
Come on, get out
