## **Comin' Around**

## **Metro Station**

Feelin' you comin' around You're breaking me down (breaking me down) Move on, move on, move on Come on, get out Move on, move on, move on Come on, get out

I keep talking cause I just need you to know My motives were always to let you go Your heart is pumping The beat it fills the walls This conversation is just to watch you fall I still turn you on This is your last chance to get some

Feelin' you comin' around You're breaking me down (breaking me down) Move on, move on

Come on, get out Move on, move on, move on Come on, get out

You hold your ground Come on, give up this fight The sun's down So you let me stay the night The room's quiet The whispers in your ear Will cause your body to somehow get so near (to some how get so near, to some how get so near)

I won't talk I'm in it just for this These moments are something I will make You shed a tear There's a feeling down below That makes pain somehow die so slow I'm getting you off

Feelin' you comin' around You're breaking me down (breaking me down) Move on, move on, move on Come on, get out Move on, move on, move on Come on, get out

Feelin' you comin' around You're breaking me down (breaking me down) Move on, move on, move on Come on, get out Move on, move on, move on Come on, get out
