

I Still Love You

Metro Station

I never thought the word was true
But I say it now girl
I scream it out to you
I still love you

I never thought the world could wait
So don't take it back girl
You now I wait for you
I still love you

And I, I, I, I'm driving to the west coast
Oh, my love
You, you, you, you said you'd never leave me
But you never promised

I, I, I wish I could take it back now
Oh, my love
And you, you, you, I know you're on fire
Burning the town down

I, I, I still love you
I, I, I still love you
I, I, I still love you
I, I, I still love you

My heart's in love, so broke us down
We are lost but I have found an idea
I still love you

I pray you would sing along
Somehow you know that
It's your song right here
I still love you

And I, I, I, I'm driving to the west coast
Oh, my love
You, you, you, you said you'd never leave me
But you never promised

I, I, I wish I could take it back now
Oh, my love
And you, you, you, I know you're on fire
Burning the town down

I can't help but think of yesterday
I can't find the word for me to say
I know now you are all I need
Heaven help me high

And I, I, I, I'm driving to the west coast
Oh, my love
You, you, you, you said you'd never leave me
But you never promised

I, I, I wish I could take it back now
Oh, my love
And you, you, you, I know you're on fire

Burning the town down

I, I, I still love you
I, I, I still love you
I, I, I still love you
I, I, I still love you
