

## Back On The Motorway

Metronomy

I went and messed around with her heart  
So now she's run off with my car  
But I can't live without her  
(and it's so hard to take)  
So I've set off out to find her  
I'm back on the motorway

At this wheel I'd drive the earth for her  
Every carriageway a mile for her  
These five gears and wheels could drive to her  
But this carriageway can't take me there

Drivin' at ninety miles per hour  
It's hard to know what's comin'  
Then on the horizon  
Something makes me brake  
I can see me darlin' ahead on the motorway  
(I can see us dying on the bonnet of a chevrolet)  
So why's my baby lying on the side of the motorway

(I wish that I had never said the things that I'd told her today)  
'Cos now she's left me crying on the shoulder of the motorway

At this wheel I'd drive the earth for her  
Every carriageway a mile for her  
These five gears and wheels could drive to her  
But this carriageway can't take me there
