

Corinne

Metronomy

Oh Corinne, I've got a pain in my heart
I think it's because of you
'Cause they kicked me out of the forces
When I laid a hand on you

Corinne, I take this pain in my heart
For just one more night with you
If they let me back in the forces
And I could lay my hand on you

I got my heart tied up now with a boom and a bang
I'm not gonna find you again
I got my heart tied up now with a boom and a bang
I'm not gonna find you again

I got my heart tied up now with a boom and a bang
I'm not gonna find you again
I got my heart tied up now with a boom and a bang
I'm not gonna find you again

I got my heart tied up, I got my heart in a bind
She just wants to dance all the time
I got my heart tied up, I got my heart in a bind
She just wants to dance all the time

I got my heart tied up, I got my heart in a bind
She just wants to dance all the time
I got my heart tied up, I got my heart in a bind
She just wants to dance all the time

I got my heart tied up now with a boom and a bang
I'm not gonna find you again
I got my heart tied up now with a boom and a bang
I'm not gonna find you again

I got my heart tied up now with a boom and a bang
I'm not gonna find you again
I got my heart tied up now with a boom and a bang
I'm not gonna find you again
