

# Let's Have A Party

Metronomy

Tonight, I can tell  
You need, to get out  
Grab your money  
Lock the door  
You won't be back here 'til tomorrow

I don't know but I've been told.  
There's a new club open tonight.

Let's go out and have a party  
Like we never have before  
Let's go out and have a good time  
'cause we never had before.

Tonight (tonight), I can tell (I can tell)  
Things haven't gone (things haven't gone) so well (so well)  
Grab your money (grab your money)  
Get out the door (get out the door)  
You won't see me here anymore

I don't know but I've been told  
Places like this are getting old

Let's go out and have a party  
Like we never have before  
Let's go out and have a good time  
'cause we never had before

Let's go out and have a party  
Like we never have before  
Let's go out and have a good time  
'cause we never had before
