

My House

Metronomy

I called you late again
Did it to [?]
Don't fall asleep again
I'm just arriving

Oh oh (oh oh)
I've seen it before (before)
I had a friend who called it misunderstanding
Oh oh (oh oh)
It's nothing at all (at all)
You and your friend we've got a good understanding

I'll make another call
You never know
I'll make another call
You never know
Planning on my own again
Trying to make the call again
You never know
I'll make another call
You never know

Underneath the mantle piece
Carving out the magazine[?]
You will find the thing your heart desires
But I can understand your pain
Living on your own again
It's always heaven to you
Your cup fill it up now

Oh oh (oh oh)
I've seen it before (before)
I had a friend who called it misunderstanding
Oh oh (oh oh)
It's nothing at all (at all)
You and your friend we've got a good understanding

We can recall when we get to my house [x4]

Yeah, I love my house
(My house, my house)
