

It's alright now
Anything you can wish for, you can do
It's a changing figure you see before you in the clouds
We'll try to make it work
And I'll be with you almost all the way
You'll wear a thistle face
I'll be a ninja
We'll be dead all the same

If I wanna go without you
All this time
We had time to let things crystalize
If I wanna go around you
It's all because
I'm so lost without you,
Lemon truth

Wishing for it, I adore it
I will call it as I saw it
It's alright now
Anything you can wish for, you can do
Wishing for it, I adore it
You abhor it
Twitch, I'd fall in
And it's a lonesome life
Oh will you call us, when they slam the door?
Wishing for it, I adore it
I acknowledge
Downing
To the little
To the little black mark on your side
In our sunlight house
To belittle
To belittle my high way down
In the sunshine outside

Please
In my belief you try again
Know that I'm your friend
Well, I've seen a lot and I've heard a lot

I'll go away this time
Hell yeah
Duck down, seminal
Don't speak of it
Don't care for it
Unless you've got something new

All because of the sun
She was lost in a war
In a war

Draw for me a rainbow
To signify loving eyes
See as an example is made of me
Absently, absently
