

Satellites

Mew

Swimming fast
Only and on the buzzing wings
You could not
I like you real silver line
Oh, See them fast
Take up that light, and we get better

I wanna breathe in a sunlighting
I wanna be with a girl like she

Swimming fast
Only on the buzzing wings
you could not know
My own electricity

You did this to me

I like you real silver line
oh, see them fast
take up that light and we get better

And I'd rather be a satellite
than picking up the phone
And I'd rather be a satellite
than picking up the phone
