

## Wheels over Me

Mew

Mending hand bleeding and  
Lend my hands the wheel, you fly over me  
Let it go now, you've been glad too  
With my hand as the wheel you cry over me  
I would like to be a child  
Drown with me until you die

I thought I, I heard you cry  
But it's just the wheels that ride over me  
But then I, I know that's why  
When I hear you sneeze

You're my dancing girl  
I never thought you'd mean the world  
It's why I'm here and why it seems reliable  
So much time for us  
There's nowhere here but there it was  
The tale I had, and you became a friend again

I can hear them  
They lost their sense and feelings  
When you touch the wheel  
I'll be alright asleep forever

I would like to be a child  
Drown with me until you die

You're my dancing girl  
I never thought you'd mean the world  
It's why I'm here, and why it seems reliable  
So much time for us  
There's nowhere here but there it was
