

## All Circles

mewithoutYou

All circles presuppose they'll end where they begin  
But only in their leaving can they ever come back around  
All circles presuppose they'll end where they begin  
But only in their leaving can they ever come back around  
All circles presuppose they'll end where they begin  
All circles presuppose they'll end where they begin  
But only in their leaving can they ever come back around  
All circles presuppose they'll end where they begin  
But only in their leaving can they ever come back around  
All circles presuppose they'll end where they begin

All circles begin with an end  
They come back around  
They come back around again

All circles presuppose they'll end where they begin  
But only in their leaving can they ever come back around  
(All circles presuppose they'll end where they begin  
But only in their leaving can they ever come back around)
