

# Chasing The Rush

Mia Martina

You said you never wanted it  
You burn my hand when we touch.  
You said I didn't mean a thing,  
You can't stop chasing the rush.

I was done, I was over you,  
Till I saw you again.  
Always running just like you do,  
This is not.

Wasting all my time  
And I'm breaking up your lies, all line by line  
And you make it up but still I know inside,  
I feel the rush is on excess all night

You said you never wanted it, you never needed it.  
You burn my hand when we touch.  
You said I didn't mean a thing, now I mean everything  
You can't stop chasing the rush.

Now you twisted the knife in me  
Razor sharp at full speed  
Keep you close like my enemy,  
I stay awake while you sleep

Wasting all my time  
And I'm breaking up your lies, all line by line  
And you make it up but still I know inside,  
I feel the rush is on excess all night

You said you never wanted it, you never needed it.  
You burn my hand when we touch.  
You said I didn't mean a thing, now I mean everything  
You can't stop chasing the rush.

You said you never wanted it, you never needed it.  
You burn my hand when we touch.  
You said I didn't mean a thing, now I mean everything  
You can't stop chasing the rush.
