

# Global Celebration

Mia Martina

There's something in the corner of my mind  
It's deep inside and I'm letting go  
It's me against the music till the end  
The beat to my heart straight through my bones  
I know you've been waiting, anticipating  
So drop the drapes and dance and let it go  
Let me drive you crazy, it's how you made me  
And if you're ready, I'ma give you what you're asking for

Honestly, I could be anywhere but I'm here  
Victory, free to be, who we are, sing with me

Now we celebrate!  
Drive you crazy,  
It's a global celebration  
Drive you crazy,  
It's a global celebration

Take my hand, I'll take you places  
Where you wanna go, don't hold it back  
Close your eyes, can you feel it?  
The beat to your heart straight through your bones  
I know you've been waiting, anticipating  
So drop the drapes and dance and let it go  
Let me drive you crazy, it's how you made me  
And if you're ready, I'ma give you what you're asking for

Honestly, I could be anywhere but I'm here  
Victory, free to be, who we are, sing with me  
Now we celebrate!

Drive you crazy,  
It's a global celebration  
Drive you crazy,  
It's a global celebration

We make people come together  
Music lets the people go crazy  
We make people come together  
Music lets the people go crazy

Honestly, I could be anywhere but I'm here  
Victory, free to be, who we are, sing with me  
Now we celebrate!

Drive you crazy,  
It's a global celebration  
Drive you crazy,  
It's a global celebration
