

## Holidays

## Miami Horror

I didn't know when to expect you  
Or even if you'd come at all  
And now they all try to possess you  
I'm still the one you choose to call

I don't know just where you came from,  
But I need you now.  
If you leave me for the stars  
It's not something I'd ever allow

The circumstances that you gone through  
I never seem to cross your mind  
But just consider we could do  
You'd be surprised at what you'll find

I don't know just where you came from,  
And I need you now.  
If you leave me for the stars  
It's not something I'd ever allow  
I don't know just where you came from,  
And I need you now.  
If you leave me for the stars  
It's not something I'd ever allow

And it all comes back to you  
Even words can't discern  
Make me wonder if it's true  
So it goes through another day

I don't know just where you came from,  
But I need you now.  
If you leave me for the stars  
It's not something I'd ever allow  
I don't know just where you came from,  
But I need you now.  
If you leave me for the stars  
It's not something I'd ever allow

I don't know just where you came from,  
And I need you now.  
If you leave me for the stars  
It's not something I'd ever allow  
I don't know just where you came from,  
And I need you now.  
If you leave me for the stars  
It's not something I'd ever allow
