

All for Love

Michael Bolton

F# C#4/7 F# C#4/7

1. The night becomes the dawn
To prove that love goes on
It's written in the stars and in my heart of hearts
With you is where I still belong

2. Through every page we turn
Each lesson that we've learned
Will finally set us free or bring us to our knees
But love is right and never wrong

R: We know we can say we gave it all
We gave it all for love
Each step of the way we gave our soul
We gave it all for love. All for love

3. In silent prayers I pray
What words could never say
To reach into your heart no matter where you are
To promise we will find a way

4. To walk the road we've known
The road that leads us home
A million dreams I've dreamed in every one I've seen
The face of you and you alone

R: We know we can say...

A lifetime goes by so fast
For the secrets that remain
Soon the future becomes the past
When I hold you again.
I'm gonna hold you forever

In silent prayers I pray
What words could never say
To reach you through the dark
To reach deep into your heart
And promise we will find a way

As night becomes the dawn
To prove that love goes on

Through every page we turn
Each lesson that we've learned
Will finally set us free or bring us to our knees

But love is right and never wrong
We give it all for love
love for you
