Call My Name

Michael Bolton

You and I sailed away to a place
We once called paradise
We were young and deep in our love
And we never needed lies

So here we stand face to face
Knowing we've drifted apart
As for myself, there'll be nobody else
Who'll ever touch this place in my heart

[Chorus:]
You just call my name
And I'll come runnin' for you in the night
Just call my name
And I'll come runnin' right back into your life
If you ever need my love, call my name

Will ya call the love we shared
Just a moment passing in time
It was a moment I can never forget
And a love that was so hard to find

There are no chains to hold you down
I told you a long time ago
If the time has come for movin' on
There's one thing I need you to know

[Chorus]

If you feel you need my love
And it's time we start over again

[Chorus]
